

# What's New in the NMS Match System for the 2025 CASPR

## New Features for Applications

**More Tag Colors** – We've increased the number of colors available to programs for tags from 6 to 18.

### Tags

Light Blue		Light Orange	
Blue		Orange	
Dark Blue		Dark Orange	
Light Green		Light Purple	
Green		Purple	
Dark Green		Dark Purple	
Light Grey		Light Red	
Grey		Red	
Dark Grey		Dark Red	

**Export All Application PDFs** – The Export Applications feature has been enhanced to give programs the option to download a single zip file with all of the PDF applications submitted to the program.

## Export Applications

[Instructions](#)

The export will generate two files for download:

- A CSV file of information from all applications submitted to your program (excludes uploaded documents, such as Personal Statements, CVs, and reference letters).
- A zip file of the full application PDF for all applications submitted to your program

## New Features in NMS Interview

**Earlier Interview Schedule Setup** – Programs can set up their interview events starting on October 31, more than 30 days before the system opens for sending invitations on December 2.

OCTOBER 2024						
SUN	MON	TUE	WED	THU	FRI	SAT
	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30	31			

  

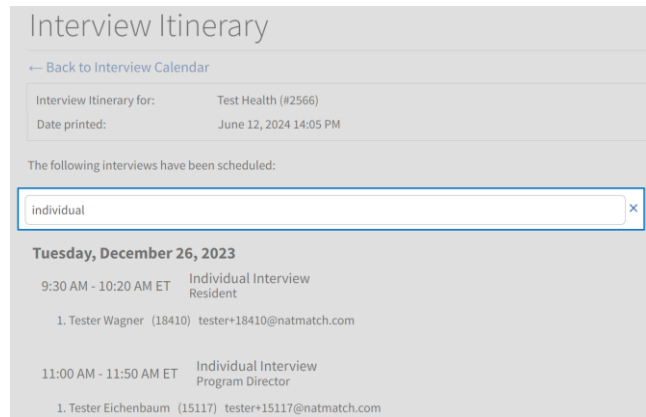

NOVEMBER 2024						
SUN	MON	TUE	WED	THU	FRI	SAT
	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30				

  

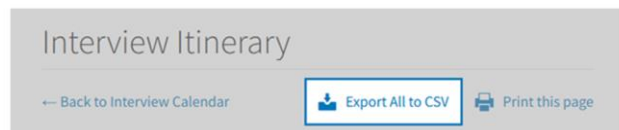

DECEMBER 2024						
SUN	MON	TUE	WED	THU	FRI	SAT
	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30	31			

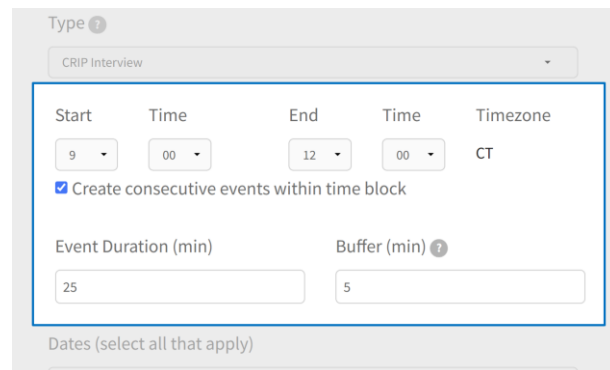

**Filtering** – We’ve added filters to the Interview Itinerary, Events Tab, and Calendar Tab to help programs focus on the events they are interested in.

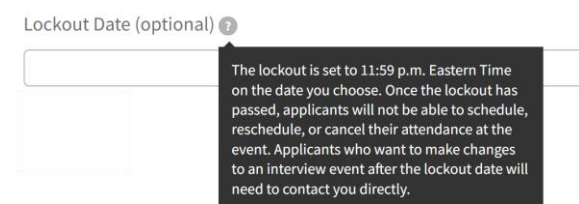

**Export Interview Schedule to a CSV File** – Programs can export their interview schedule from NMS Interview into a CSV file which can be opened in Microsoft Excel or imported to a personal calendar.

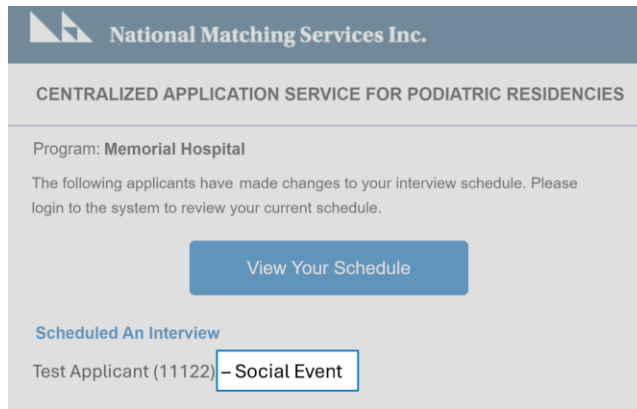

**Add Multiple Consecutive Events in One Action** – Programs can now schedule back-to-back interviews with one action. Programs specify the start and end time for a desired time block and select the duration for each event to be scheduled within that block. Programs can also add a buffer time or break between each event if desired.

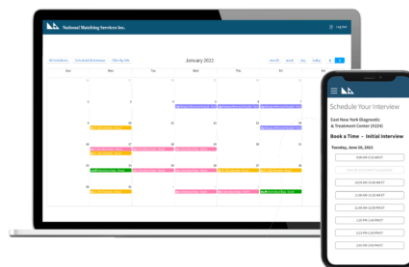

**Standardized Lockout Time** – If programs set a Lockout Date for their interview events, the lockout will begin at 11:59 p.m. Eastern Time on the date selected by the program. Applicants will be able to make changes to an event up to but not after 11:59 p.m. Eastern Time on the lockout date.

**Daily Digest Notification Content –**  
The daily digest notification email will indicate the interview type of the event that the candidate has scheduled/changed/canceled.

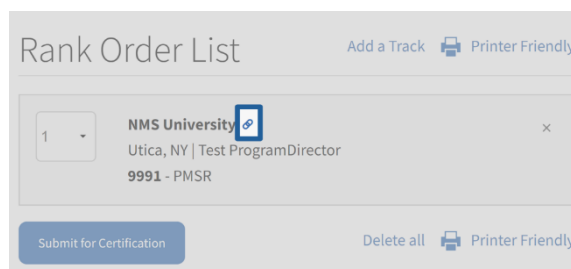

**Online Interview Scheduling For All Programs –** All programs (COTH members and non-members) must use the NMS Match System to schedule interviews. Previously, non-COTH members were not allowed to use the NMS Match System to schedule interviews.

## Applicant Rankings

**Link to Directory on Rank Order List –**  
Each rank on an applicant's Rank Order List will include a link to the program's listing in the AACPM CASPR Directory of Residency Programs.

## New Features for Colleges

**Secondary Contact/Users –** Colleges will have the ability to add secondary users to their Account in the NMS Match System who will have access to college information. Secondary contacts will also be copied on emails sent to the College from CASPR.
